- **INTERNATIONAL DAY OF WOMEN AND GIRLS IN SCIENCE**

**International day of Women and girls in science** is observed on February 11 every year. Gender equality remains a priority of the United Nations and to fully achieve the goal and give access to the participation of girls and women in science the general assembly of United Nations dedicated February 11 as international day of Women and girls in science in 2015. This day recognizes the important role women play in the field of science and technology. Gender equality and science are crucial for achieving development goals, which include the 2030 agenda for sustainable development. Our community has made several efforts to engage women and girls in science but they continue to exclude from participating fully in the field. The theme for International Day of Women and Girls in Science this year is ‘Equity, Diversity and Inclusion: Water Unites Us’. The UN reported that people around the world do not have much access to
