SNM TRAINING COLLEGE, MOOTHAKUNNAM

FEEDBACK ANALYSIS – ACTION TAKEN REPORT

Academic Year 2021-2022

Feedbacks from stakeholders were collected and analyzed in detail. Majority were found to be satisfied with the current curriculum and it was found that it provides ample scope for enhancing teaching abilities of B.Ed students. The instructional resources are made use of to the maximum. Based on the needs of the local and global society, the pedagogical skills and demands are met based on the current B.Ed curricula.

Areas Identified	Action Taken
Utilization of technology in accordance with worldwide context	Training programmes including workshops.
Improving Technology and Media utilization	Experiential learning were designed and implemented.
Usage of variety of educational materials	Spaces were provided in instructional planning
Contemporary contents related to teacher education	Exposure to recent theories through seminars, assignments and other methods and media.
Addressing wide variety of students	More practical works such as interactions with school students in their live classroom sessions.
