45 responses

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

45 responses

20. The overall quality of teaching-learning process in your institute is very good.

45 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

45 responses

None

* Learning process could be student centered

*

Teaching could be more interactive

Every things is perfect to my opinion.

Nil

Considering the policy of giving and taking respect from the PE teacher

Nothing

Give importance to individual differences

Should avoid the extra certificate courses or else not make it compulsory.

Excellent

Improve Infrastructure facilities

Using more ICT and opportunity to access library more

If the syllabus is completed a bit early it will reduce the stress at the end

The overall teaching - learning experience in the institution is excellent. So I don't have any suggestions to improve.

Lack of proper communication

Good organisation,Need to reduce work stress

Overall organisation and teaching process was excellent. It would be helpful if strategies for reducing stress caused by workload were implemented.

Appropriate use of technologies, better time management

Reduce workload, Give informations on time

Ensure the proper working of the TV's and computers in the college.

Extremely satisfied

Must include practical sessions with theories

ICT enabled learning can be used

Excellent learning experience

Provide necessary teaching aids (ICT) in all classes... especially general classrooms.

Suggest for an outdoor education, teaching learning process can be more student centric

I don't find any need for further improvement in teaching learning processes. But the classroom atmosphere or environment should needed an improvement.

Satisfying

1. Asking students to pay their due fee amount right before they enter the exam hall isn't fair. It negatively affects the mental state of the students.
2. Reduce the hostel fee. 1500 rs is way to high for the facilities in the hostel. Concerned authorities should have a look at the condition of the hostel.

I strongly believe that this institution has helped me to know myself, my skills, abilities and strengths.

But the only problem I felt was that some teachers were biased towards some students. It should be reduced and every student should be treated equally.

The genuine reasons of students should be considered in evaluation and grading.

But other than that most teachers are very helpful and motivating. I am very thankful to have a great teacher as my mentor.

Thanks to SNMTC and Asha Teacher for helping me to complete this course. Special mention to all the teachers of SNMTC for creating great future teachers. □

*To provide more ICT related tools

Overall good

Good

Courses can be more research oriented

New technology monthly updates can be given.

Teaching methods were excellent. No improvement needed

It will be good, when the teachers assign different works related to practicals, in different dates.

The overall learning experience for me is just excellent. Teachers are so passionate.

Give more practical classes than theory classes

More than theoretical class, try to include practical sessions

Teachers should be impartial and not be authoritative.

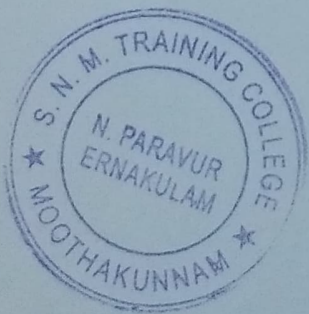

Can use more of ICT in class

Activity oriented classes can be undertaken more often

Include more field vist experiences

Teachers should be a little more careful in dealing with the internal marks of students. Without any specific reason shouldn't cut down on those marks.

More practical oriended class
